Independent Auditors' Report

To the Board of Directors of AIR ASIA CO., LTD.:

Opinion

We have audited the consolidated financial statements of AIR ASIA CO., LTD. (“the Company”) and its subsidiaries (“the Group”), which comprise the consolidated balance sheets as of December 31, 2022 and 2021, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards (“IFRSs”), International Accounting Standards (“IASs”), Interpretations developed by the International Financial Reporting Interpretations Committee (“IFRIC”) or the former Standing Interpretations Committee (“SIC”) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

1. Revenue recognition

Please refer to Note 4(n) “Revenue recognition”, Note 5(a) “Significant accounting assumptions and judgments, and major sources of estimation uncertainty”, and Note 6(t) “Revenue from contracts with customers” to the consolidated financial statements.

Description of key audit matter:

Parts of the Group's aircraft maintenance service and aircraft business maintenance management contracts recognize revenue when a performance obligation was satisfied over time. This method calculates the percentage of completion based on the goods and services transferred to the customer. As measuring the progress towards complete satisfaction of the performance obligation involves management's material judgement, we determined that the assessment of revenue recognition was one of the key areas our audit focused on.

How the matter was addressed in our audit procedures:

- Assessing and testing the effectiveness of the internal control design and execution regarding revenue recognition.
- Selecting material contracts as samples, inspecting revenue recognition terms and conditions of contracts, testing the material requisition record and employee time record to verify the correctness of actual input and verifying the correctness of the amount of revenue recognized.
- Performing a retrospective review to comparatively analyze the historical accuracy of judgments with reference to actual revenue in order to assess the rationality of the judgement and assumptions of the current period.
- Assessing whether the disclosure of revenue recognition was appropriate.

2. Valuation for inventories

Please refer to Note 4(h) "Inventories", Note 5(b) "Significant accounting assumptions and judgments, and major sources of estimation uncertainty", and Note 6(e) "Inventories" to the consolidated financial statements.

Description of key audit matter:

The maintenance materials prepared by the Group to meet customer needs may lose their original benefits due to the obsolescence of aircraft models, resulting in a risk wherein the carrying value of inventories may exceed its net realizable value. Therefore, we determined that the assessment of valuation of inventories was one of the key areas our audit focused on.

How the matter was addressed in our audit procedures:

- Understanding the net realizable value used by management for inventory valuation, as well as sampling and verifying the original transaction vouchers to test the rationality of the net realizable value of inventory.
- Inspecting the inventory aging report, analyzing the changes of inventory aging, as well as sampling and checking the accuracy of the inventory aging report.
- Performing a retrospective review to comparatively analyze the historical accuracy of judgments with reference to actual disposal in order to assess the rationality of the judgement and assumptions of the current period.
- Assessing whether the disclosure of provision for inventory and obsolescence was appropriate.

Other Matter

The Company has prepared its parent company only financial statements as of and for the years ended December 31, 2022 and 2021, on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of consolidated Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and

events in a manner that achieves fair presentation.

6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on this consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Yen-Ta Su and Kuo-Tsung Chen.

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)
AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
For the years ended December 31, 2022 and 2021
(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

AIR ASIA CO., LTD. (the “Company”) was incorporated as a company limited by shares under the Company Act of the Republic of China (R.O.C.) on January 19, 1955. The Company’s registered and operating address is No. 1050, Jichang Rd., Rende Dist., Tainan City, Taiwan, R.O.C.

The consolidated financial statements comprise the Company and its subsidiaries (the “Group”).

The Group’s principal activities consist of maintenances, renovation, upgrades and integrated logistic support services for the aircraft and related components.

The Company listed their shares on the Taiwan Stock Exchange on 22 February 2018.

(2) Approval date and procedures of the consolidated financial statements:

The consolidated financial statements were authorized for issuance by the Board of the Company on February 22, 2023.

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2022:

- Amendments to IAS 16 “Property, Plant and Equipment—Proceeds before Intended Use”
- Amendments to IAS 37 “Onerous Contracts—Cost of Fulfilling a Contract”
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 “Reference to the Conceptual Framework”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement for at least 12 months after the reporting date. The amendments has removed the requirement for a right to be unconditional and instead now requires that a right to defer settlement must exist at the reporting date and have substance. The amendments clarify how a company classifies a liability that can be settled in its own shares – e.g. convertible debt.	January 1, 2024

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IAS 1 “Non-current Liabilities with Covenants”
- IFRS16 “Requirements for Sale and Leaseback Transactions”

(4) Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C.(hereinafter referred to IFRS endorsed by the FSC).

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(b) Basis of preparation

1. Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- (i) Financial instruments at fair value through profit or loss are measured at fair value;
- (ii) Hedging financial instruments are measured at fair value.

2. Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollar (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

(c) Basis of consolidation

1. Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from Intragroup transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances. Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

2. List of subsidiaries in the consolidated financial statements:

Name of investor	Name of subsidiary	Principal activity	Shareholding	
			December 31, 2022	December 31, 2021
The Company	Air Asia Company Ltd. (USA)	Logistics Services	100 %	100 %

3. Subsidiaries excluded from the consolidated financial statements: None.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(d) Foreign currencies

1. Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Nonmonetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- (i) an investment in equity securities designated as at fair value through other comprehensive income;
- (ii) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- (iii) qualifying cash flow hedges to the extent that the hedges are effective.

2. Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to noncontrolling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as noncurrent.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

1. It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
2. It is held primarily for the purpose of trading;
3. It is expected to be realized within twelve months after the reporting period; or
4. The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as noncurrent.

An entity shall classify a liability as current when:

1. It is expected to be settled in the normal operating cycle;
2. It is held primarily for the purpose of trading;
3. It is due to be settled within twelve months after the reporting period; or
4. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

(i) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

(ii) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or fair value through other comprehensive income (FVOCI) described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

(iii) Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- how managers of the business are compensated — e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

(iv) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows ;
- terms that may adjust the contractual coupon rate, including variable rate features ;
- prepayment and extension features ; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features) .

(v) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, notes and trade receivables, other receivables and refundable deposit) and contract assets.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date ; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 1 year past due or the debtor is unlikely to pay its credit obligations to the Company in full.

The Group considers a time deposit (recorded as refundable deposit) to have low credit risk when only deal with financial institutions with good credit rating.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer ;
- a breach of contract such as a default or being more than 1 year past due ;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider ;
- it is probable that the borrower will enter bankruptcy or other financial reorganization ; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(vi) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(2) Financial liabilities and equity instruments

(i) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(ii) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

(iii) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital surplus is not sufficient to be written down).

(iv) Compound financial instruments

Compound financial instruments issued by the Group comprise convertible bonds denominated in NTD that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

(v) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

(vi) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(vii) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(3) Derivative financial instruments and hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency exposures. Derivatives are initially measured at fair value. Any attributable transaction costs thereof are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss in the statement of comprehensive income. When a derivative is designated as, and effective for, a hedging instrument, its timing of recognition in profit or loss is determined based on the nature of the hedging relationship. When the fair value of a derivative instrument is positive, it is classified as a financial asset, whereas when the fair value is negative, it is classified as a financial liability.

The Group designates certain derivative instruments as cash flow hedges. Hedges of foreign

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

exchange risk on firm commitments are accounted for as cash flow hedges.

At inception of designated hedging relationships, the Group documents the risk management objective and strategy for undertaking the hedge. The Group also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

The effective portion of changes in the fair value of derivatives and other qualifying hedging instruments that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under ‘ other equity— gains (losses) on hedging instruments’, limited to the cumulative change in fair value of the hedged item from inception of the hedge. The gain or loss relating to the ineffective portion is recognized immediately in profit or loss.

Amounts previously recognized in other comprehensive income and accumulated in other equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognized hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognized in other comprehensive income and accumulated in other equity are removed from other equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability. Furthermore, if the Group expects that some or all of the loss accumulated in other equity will not be recovered in the future, that amount is immediately reclassified to profit or loss.

The Group prospectively discontinues hedge accounting only when the hedging relationship ceases to meet the qualifying criteria; for instance, when the hedging instrument expires or is sold, terminated or exercised. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in other equity remains in equity until, for a hedge of a transaction resulting in the recognition of a non-financial item, it is included in the non-financial item’s cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit or loss in the same period or periods as the hedged expected future cash flows affect profit or loss. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified to profit or loss.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Property, plant and equipment

1. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

2. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

3. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

(i) Buildings and structures	3~50 years
(ii) Machinery and equipment	2~20 years
(iii) Transportation equipment	5~20 years
(iv) Office equipment	2~15 years

Depreciation methods, useful lives and residual values are reviewed at each annual reporting date and adjusted if appropriate.

(j) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(a) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses,

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise an extension or termination option; or
- there is any lease modification

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

If an arrangement contains lease and non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, the Group has elected not to separate non-lease components and account for the lease and non-

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

lease components as a single lease component.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets, including land, business premises, staff dormitory, and part of transportation equipment. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a practical expedient, the Group elects not to assess whether all rent concessions that meets all the following conditions are lease modifications or not:

- the rent concessions occurring as a direct consequence of the COVID-19 pandemic;
- the change in lease payments that resulted in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments that affects only those payments originally due on, or before, June 30, 2022; and
- there is no substantive change in other terms and conditions of the lease.

In accordance with the practical expedient, the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

(b) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

(k) **Intangible assets**

1. Recognition and measurement

Except for goodwill, intangible assets are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

2. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

3. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in
(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

- | | |
|----------------------------------|------------|
| (i) Software | 1~10 years |
| (ii) Acquired special technology | 1~8 years |

Amortization methods, useful lives and residual values are reviewed at each annual reporting date and adjusted if appropriate.

(l) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(m) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(n) Revenue recognition

1. Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

(1) Sale of goods

The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

(2) Maintenance services

The Group provides aircraft maintenance services and related components. Revenue from providing services is recognized in the accounting period in which the services are rendered. The consideration promised in the contract includes fixed and variable amounts. For fixed-price contracts, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. The proportion of services provided is determined based on the actual maintenance hours spent relative to the total expected maintenance hours. The variable consideration is generally made and adjusted based on historical experience and any other known factors that would significantly affect the variable consideration.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by the Group exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.

The Group offers a standard warranty for aircraft maintenance services and related components to provide assurance that the service complies with the agreed upon specifications and has recognized warranty provisions for this obligation.

(3) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

a consequence, the Group does not adjust any of the transaction prices for the time value of money.

2. Contract costs

(1) Incremental costs of obtaining a contract

The Group recognizes as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Group applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

(2) Costs to fulfil a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Group recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:

- (i) the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify;
- (ii) the costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- (iii) the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfil the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Group cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations (or partially satisfied performance obligations), the Group recognizes these costs as expenses when incurred.

(o) **Government grants**

The Group recognizes an unconditional government grant related to covid-19 in profit or loss as other income when the grant becomes receivable. Other government grants related to assets are initially recognized as deferred income at notional amount if there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant; they are then recognized in profit or loss as deduction of depreciation expenses on a systematic basis over the useful life of the asset. Grants that compensate the Group for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(p) Employee benefits

1. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

2. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(q) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

Grant date of a share-based payment award is the date which the number of shares purchased by the employees was confirmed.

(r) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainly related to income tax, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

1. temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
2. temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

and it is probable that they will not reverse in the foreseeable future; and

3. taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

1. the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
2. the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - (i) the same taxable entity; or
 - (ii) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(s) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as convertible bonds and employee compensation.

(t) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses. Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these consolidated financial statements, management has made judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

accounting estimates in the following period.

The Group is likely to be facing economic, such as COVID-19, Ukraine-Russia conflict and inflation. Those events may have a significant impact in the next financial year on the following accounting estimates, which depend on the future forecasts.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of COVID-19 pandemic:

(a) Revenue recognition

The Group estimates the amount of variable consideration using the expected value method or the most likely amount and recognizes it as deduction of revenue in the same period the related revenue is recorded. The variable consideration is generally made and adjusted based on historical experience and any other known factors that would significantly affect the variable consideration. The adequacy of estimations is reviewed periodically. The delivery schedule of maintenance materials could result in significant adjustments to the estimation made.

Contract revenue are recognized by reference to the stage of completion of each contract. The stage of completion of a contract is measured based on the goods and services transferred to the customer. The difference between the input record of maintenance material requisition as well as employee time and the actual acceptance, could result in significant adjustments to the estimation made.

(b) Valuation of inventories

As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumption as to future demand within a specific time horizon. Due to the obsolescence of aircraft models, there may be significant changes in the net realizable value of inventories. Please refer to note 6(e) for further description on the valuation of inventories.

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2022	December 31, 2021
Cash and cash on hand	\$ 824	2,993
Demand deposits	190,703	315,855
Time deposits	61,420	-
Cash and cash equivalents in the consolidated statement of cash flows	\$ 252,947	318,848

Please refer to note 6(w) for the exchange rate risk and sensitivity analysis of the financial assets.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(b) **Financial instruments used for hedging**

The details of financial assets and liabilities for hedging were as follows:

Cash flow hedge:

	December 31, 2022	December 31, 2021
Financial assets for hedging— current:		
Forward exchange contracts	\$ 2,112	34
Financial liabilities for hedging— current:		
Forward exchange contracts	\$ 1,634	639

1. Cash flow hedge— forward exchange contracts

The Group's strategy is to use the forward exchange contracts to hedge its estimated foreign currency exposure in respect of forecasted purchases transactions. When actual purchase occurs, the amount accumulated in gains (losses) on the effective portion of cash flow hedge under other equity interest will be reclassified to non-current assets in the same period. The terms of forward foreign exchange contract are coordinated with the hedged item. The unexpired forward exchange contracts held by the Group were as follows:

December 31, 2022				
	Contract Amount (in thousands)	Currency	Maturity dates	Average strike price
Forward exchange purchased	USD\$ 7,056	TWD to USD	2023.1.10~2023.12.11	USD28.422~31.96

December 31, 2021				
	Contract Amount (in thousands)	Currency	Maturity dates	Average strike price
Forward exchange purchased	USD\$ 7,732	TWD to USD	2022.1.25~2022.9.12	USD27.603~27.921

2. The details arising from cash flow hedges for the years ended December 31, 2022 and 2021, were as follows:

Account Item	2022	2021
Recognized in other comprehensive income during the period	\$ 12,483	\$ 402
Reclassification from equity to decrease in inventories for the period	\$ 11,617	\$ 886

There was no ineffective portion of unsettled cash flow hedge recognized in profit or loss.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(c) **Notes and trade receivables**

	December 31, 2022	December 31, 2021
Notes receivable	\$ 250	-
Trade receivables (including from related parties)	1,209,349	1,420,423
Less: Loss allowance	(1,127)	(16,042)
Total	\$ 1,208,472	1,404,381

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information. If the receivables of government in group 1 will be collected based on the central government budget, the amount of the receivables will be regarded as not overdue with no impairment risk. The loss allowance provision was determined as follows:

	December 31, 2022		
	Gross carrying amount	Weighted-average loss rate	Loss allowance provision
<u>Group 1</u>			
Current	\$ <u>1,164,460</u>	0.00%	<u>-</u>
<u>Group 2</u>			
Current	\$ 43,915	0.81%	355
1 to 90 days past due	486	7.09%	34
91 to 180 days past due	-	-	-
181 to 270 days past due	-	-	-
271 to 365 days past due	-	-	-
More than 365 days past due	738	100.00%	738
	<u>\$ 45,139</u>		<u>1,127</u>
		December 31, 2021	
	Gross carrying amount	Weighted-average loss rate	Loss allowance provision
<u>Group 1</u>			
Current	\$ <u>1,350,540</u>	0.00%	<u>-</u>
<u>Group 2</u>			
Current	\$ 53,927	0.52%	283
1 to 90 days past due	258	24.54%	63
91 to 180 days past due	3	52.51%	1
181 to 270 days past due	-	-	-
271 to 365 days past due	-	-	-
More than 365 days past due	15,695	100.00%	15,695
	<u>\$ 69,883</u>		<u>16,042</u>

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The movement in the allowance for notes, trade and overdue receivables was as follows:

	<u>2022</u>	<u>2021</u>
Balance at January 1	\$ 16,042	44,352
Impairment losses reversed	(567)	(2,450)
Amounts written off	(14,348)	(25,860)
Balance at December 31	<u>\$ 1,127</u>	<u>16,042</u>

In the third quarter of 2021, for overdue receivables that overdue for more than 365 days, the Group acquired the ownership of the debtor's aircraft by appealing to the court for compulsory enforcement and related legal procedures. The fair value of the aircraft amounting to \$2,781 was transferred to other non-current assets — other. The remaining balance of overdue receivables and its allowance amounting to \$25,860 was derecognized.

(d) **Other receivables**

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Other receivables—income taxes refund	\$ 196	265
Others	5,284	985
Less: Loss allowance	-	-
	<u>\$ 5,480</u>	<u>1,250</u>

For further credit risk information, please refers to note 6(w).

(e) **Inventories**

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Repair materials and others	\$ 817,744	735,664
Finished goods	374,022	252,169
	<u>\$ 1,191,766</u>	<u>987,833</u>

The details of the cost of sales were as follows:

	<u>2022</u>	<u>2021</u>
Inventory that has been sold and service costs	\$ 3,655,469	3,428,408
Unallocated production overheads	143,131	175,698
Write-down of inventories	17,404	49,411
Write-off for inventories scrapped	2,393	3,436
Revenue from sale of scraps	(230)	(38)
Gains on physical inventory	(6)	(20)
	<u>\$ 3,818,161</u>	<u>3,656,895</u>

The inventories of the Group were not pledged as collateral or restricted in any way.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(f) **Prepayments**

The details of the prepayments were as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Prepayment of materials	\$ 93,809	62,852
Prepayment of bank performance guarantee fees	12,004	8,092
Prepayment – other	6,267	9,911
	<u>\$ 112,080</u>	<u>80,855</u>

(g) **Property, plant and equipment**

The movement in cost, accumulated depreciation, and impairment loss of the property, plant and equipment was as follows:

	<u>Land</u>	<u>Buildings and structures</u>	<u>Machinery and equipment</u>	<u>Office equipment</u>	<u>Transportation equipment</u>	<u>Construction in process and testing equipment</u>	<u>Total</u>
Cost or deemed cost:

1. Real estate leases

The Group leases land and buildings for its maintenance factory and office space, which lease terms of two to ten years.

2. Other leases

The Group leases machinery and transportation equipment, with lease terms of two to three years.

The Group also leases land, business premises, staff dormitory and part of transportation equipment with contract terms of one to three years. These leases are short-term or leases of low-value items. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases.

(p) **Employee benefits**

Defined contribution plans

The Group allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs incurred from the contributions to the Bureau of the Labor Insurance amounted to \$37,138 and \$36,930 for the years ended December 31, 2022 and 2021, respectively.

Notes to the Consolidated Financial Statements

3. Assessment of tax

The Company's tax returns for the years through 2020 were assessed by the tax authority.

(r) **Capital and other equity**

As of December 31, 2022, and 2021, all of the authorized common stock of the Company was \$2,100,000, comprising 210,000 thousand shares, with a par value of \$10 per share. The issued shares were 162,048, 150,564 thousand shares. All the capitals were fully received.

1. Common stock

On June 15, 2022, the shareholders' meeting resolved to issue 11,292 thousand new shares by its earnings and capital surplus in the amount of \$31,317 and \$81,606, respectively, with a par value of \$10 per share. The Company resolved the basis date of the increase capital to be September 5, 2022, and the registration procedures have been completed.

On August 25, 2021, the shareholders' meeting resolved to issue 5,772 thousand new shares by its earnings and capital surplus in the amount of \$18,364 and \$39,351, respectively, with a par value of \$10 per share. The Company resolved the basis date of the increase capital to be December 6, 2021, and the registration procedures have been completed.

For the years ended December 31, 2022 and 2021, the convertible bonds issued by the Company amounting to \$1,914 and \$136,216, were converted into 191 and 13,622 thousand shares of common stock, respectively. As of December 31, 2022 and 2021, for the 0 and 264 thousand shares, respectively, the related registration procedures have not been completed.

2. Capital surplus

The balance of capital surplus at the reporting date was as follows:

	December 31, 2022	December 31, 2021
Additional paid-in capital	\$ 46,927	126,946
Gain on disposal of assets	100,063	100,063
Conversion of convertible bonds	7,849	10,960
Expired conversion of convertible bonds	2,958	-
Other—disgorgement	18	18
	\$ 157,815	237,987

The board of directors meeting resolved on February 22, 2023 to distribute cash dividends by its capital surplus in the amount of \$ 45,552 (NT\$ 0.2811 per share).

The shareholders' meeting resolved on June 15, 2022 to issue new shares by its capital surplus in the amount of \$81,606 (NT\$ 0.542 per share).

The shareholders' meeting resolved on August 25, 2021 to issue new shares by its capital surplus in the amount of \$39,351 (NT\$ 0.3 per share).

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

3. Retained earnings

The Company's Articles of Incorporation provide that the current net income, after deducting the previous years' losses, shall set aside 10% as legal reserve and special reserve according to the relevant laws and other regulations of R.O.C. Then the balance is added up with the accumulated retained earnings in the previous year. The distribution of the remaining portion, if any, will be proposed by the board of directors for approval in the board of directors meeting.

If dividend is distributed in issued new shares, shall be made in accordance with the provisions of Article 240 of the Company Law. If dividend is distributed in cash, the board of directors shall be attended by two-thirds of the total directors, and resolved by a majority votes at the board of directors, to distribute dividends and bonuses in whole or in part to be paid in cash, and report to the shareholders' meeting.

The Company's dividend policy is based on the principle of stability and balance. In addition to considering the profit of the shareholders, the Company shall take into account the impact of the Company's operations. The Company allocate the at least 50% annual distributable surplus to shareholders' dividend according to factors such as financial, business and operational aspects. The distribution of surplus is prioritized by cash dividends and may also distributed by stock dividends. However, the proportion of stock dividends shall not higher than 50% of the total dividends.

(1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

(2) Earning distribution

The amount of cash dividends of appropriations of earnings for 2021 had been approved in the board meeting held on February 23, 2022. The amount of shares dividends of appropriations of earnings for 2021 had been resolved through the shareholders' meeting on June 15, 2022. The amount of cash dividends of appropriations of earnings for 2020 had been approved in the board meeting held on February 23, 2021. The amount of shares dividends of appropriations of earnings for 2020 had been resolved through the shareholders' meeting on August 25, 2021.

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(s) **Earnings per share**

For the years ended December 31, 2022 and 2021, the Company's earnings per share were calculated as follows:

	Unit of share: thousand	
	2022	2021
Basic earnings per share		
Profit attributable to common shareholders of the Company	\$ <u>13,489</u>	<u>76,984</u>
Weighted-average number of shares	<u>161,949</u>	<u>155,748</u>
	<u>\$ 0.08</u>	<u>0.49</u>
Diluted earnings per share		
Profit attributable to common shareholders of the Company	\$ 13,489	76,984
Effect of dilutive ordinary shares:		
Convertible bonds	-	4,869
Profit attributable to common shareholders of the Company (diluted)	<u>\$ 13,489</u>	<u>81,853</u>
Weighted-average number of shares	<u>161,949</u>	<u>155,748</u>
Effect of dilutive ordinary shares:		
Remuneration to employees	32	91
Convertible bonds	-	19,371
Weighted-average number of shares (diluted)	<u>161,981</u>	<u>175,210</u>
	<u>\$ 0.08</u>	<u>0.47</u>

For the year ended December 31, 2022, there is an anti-diluted effect on convertible bonds.

(t) **Revenue from contracts with customers**

1. Disaggregation of revenue

	2022	2021
<u>Primary geographical markets</u>		
Taiwan	\$ 3,628,419	3,495,948
Asia	314,296	209,408
Other	<u>126,514</u>	<u>179,614</u>
	<u>\$ 4,069,229</u>	<u>3,884,970</u>
<u>Major services and timing of revenue recognition</u>		
At a point in time

Subtotal	<u>2,903,334</u>	<u>2,600,884</u>
Total	<u>\$ 4,069,229</u>	<u>3,884,970</u>

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2. Contract balances

	December 31, 2022	December 31, 2021	December 1, 2021
Notes and trade receivables	\$ 1,209,599	1,420,424	1,122,211
Less: Loss allowance	<u>(1,127)</u>	<u>(16,043)</u>	<u>(44,352)</u>
Total	<u>\$ 1,208,472</u>	<u>1,404,381</u>	<u>1,077,859</u>
Contract assets – Maintenance service	<u>\$ 913,851</u>	<u>762,733</u>	<u>730,523</u>
Contract liabilities – Maintenance service	<u>\$ 8,597</u>	<u>6,959</u>	<u>6,633</u>

For details on notes and trade receivables and allowance for impairment, please refer to note 6(c).

The amount of revenue recognized for the years ended December 31, 2022 and 2021 that were included in the contract liability balance at the beginning of the period were \$6,959 and \$6,369, respectively.

The contract assets primarily relate to the Group's rights to consideration in exchange for providing maintenance services to a customer but has not yet billed at the reporting date. The contract assets are transferred to receivables when the rights to consideration become unconditional.

The major change in the balance of contract assets and contract liabilities is the difference between the time frame in the performance obligation to be satisfied and the payment to be received.

3. Transaction price allocated to the remaining performance obligations

The Group has signed several multi-year military maintenance contracts with the military department of the government. Although the contract stated the budget, the actual performance obligation is based on the maintenance work order and recognized revenue based on each order. As of December 31, 2022 and 2021, the maintenance period of the work obtained were less than one year, thus, the Group applies the practical expedient of IFRS 15 and does not disclose information about the transaction price allocated to the remaining performance obligations of the contract.

4. Assets recognized from costs to obtain a contract

	December 31, 2022	December 31, 2021
Incremental costs of obtaining contracts – non-current	\$ 45,594	61,074
Less: accumulated amortization	<u>(30,341)</u>	<u>(51,420)</u>
Total	<u>\$ 15,253</u>	<u>9,654</u>

The related expenses of stamp tax paid by the Group for the acquisition of the aircraft maintenance business are expected to be recoverable and therefore were recognized as assets and amortized over the contract period of the aircraft maintenance business. Amortization expenses of \$6,449 and \$12,998 were recognized for the years ended December 31, 2022 and 2021.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(u) **Employees compensation**

According to the Articles of Association, once the Company has annual profit, it should appropriate 1%~3% of the profit to its employees. When the Company still has an accumulated loss, the Company shall keep the profit for making up an accumulated loss.

The remunerations to employees amounted to \$341 and \$1,591 for the years ended December 31, 2022 and 2021, respectively. These amounts were calculated using the Company's net income before tax without the remunerations to employees for each period, multiplied by the proposed percentage which is stated under the Company's proposed Article of Incorporation. These remunerations were expensed under operating costs or expenses for each period.

Related information would be available at the Market Observation Post System website. The amounts, as stated in the financial statements, are identical to those of the actual distributions for 2022 and 2021.

(v) **Non-operating income and expenses**

1. Other income

The details of other income were as follows:

	<u>2022</u>	<u>2021</u>
Government grants	\$ -	78,893
Rent income	1,390	1,390
Other income – others	<u>14,954</u>	<u>14,853</u>
	<u>\$ 16,344</u>	<u>95,136</u>

The Group received a wage subsidy and working capital subsidy of \$78,893 for the year ended December 31, 2021. This is a relief measure provided by the R.O.C government in response to the Covid-19 pandemic. The Group has the right to receive the grant because it has met the application requirements of the aforementioned wage subsidy and working capital subsidy relief measure. This grant was recognized in profit or loss under other income. As of December 31, 2021, the receivables related to this grant was fully received.

2. Other gains and losses

The details of other gains and losses were as follows:

	<u>2022</u>	<u>2021</u>
Gains on disposals of property, plant and equipment	\$ 39	19
Foreign exchange gains, net	1,903	10,631
Net gains (losses) on valuation of financial assets at fair value through profit or loss	(290)	199
Handing fees	(10,609)	(9,679)
Others	<u>(106)</u>	<u>(901)</u>
	<u>\$ (9,063)</u>	<u>269</u>

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(w) **Financial instruments**

1. Credit risk

(i) Credit risk exposure

The carrying amount of financial assets and contract assets represents the maximum amount exposed to credit risk.

(ii) Concentration of credit risk

As of December 31, 2022 and 2021, a few customers of the Group accounted for 85% and 74%, respectively, of accounts receivable. As of the end of the reporting period, the Group did not suffer any significant credit risk losses due to these customers. The Group periodically evaluates customers' financial position and the possibility of recovery of receivables in order to reduce credit risk.

(iii) Credit risk exposure of receivables and other financial assets at amortized cost

For credit risk exposure on notes, trade and overdue receivables, and the details on loss allowance provision, please refer to note 6(c).

Other financial assets at amortized cost include other receivables and refundable deposit. There was no loss allowance recognized or reversed for the years ended December 31, 2022 and 2021.

All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected credit losses.

2. Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	<u>Carrying amount</u>	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-5 years</u>	<u>Over 5 years</u>
December 31, 2022						
Non-derivative financial liabilities						
With floating interest rates	\$ 1,368,750	1,380,665	1,233,826	70,690	76,149	-
With fixed interest rates	699,377	706,453	550,000	156,453	-	-
Non-interest-bearing liabilities						
Lease liabilities	648,601	648,601	648,601	-	-	-
	232,720	250,271	21,454	16,999	49,081	162,737
Derivative financial liabilities						
Forward exchange contracts:						
Outflow	1,634	114,327	114,327	-	-	-
Inflow	-	(112,693)	(112,693)	-	-	-
	<u>\$ 2,951,082</u>	<u>2,987,624</u>	<u>2,455,515</u>	<u>244,142</u>	<u>125,230</u>	<u>162,737</u>

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

	<u>Carrying amount</u>	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-5 years</u>	<u>Over 5 years</u>
December 31, 2021						
Non-derivative financial liabilities						
With floating interest rates	\$ 778,750	787,405	489,854	177,894	119,657	-
With fixed interest rates	1,184,965	1,193,993	1,193,993	-	-	-
Non-interest-bearing liabilities						
Lease liabilities	543,491	543,491	543,491	-	-	-
Derivative financial liabilities	248,531	264,608	19,441	17,313	48,843	179,011
Forward exchange contract :						
Outflow	639	196,773	196,773	-	-	-
Inflow	-	(196,134)	(196,134)	-	-	-
	<u>\$ 2,756,376</u>	<u>2,790,136</u>	<u>2,247,418</u>	<u>195,207</u>	<u>168,500</u>	<u>179,011</u>

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

3. Currency risk

(i) Exposure to foreign currency risk

The Group's significant exposure to foreign currency risk was as follows:

	<u>December 31, 2022</u>			<u>December 31, 2021</u>		
	<u>Foreign currency</u>	<u>Exchange rate</u>	<u>NTD</u>	<u>Foreign currency</u>	<u>Exchange rate</u>	<u>NTD</u>
<u>Financial assets</u>						
<u>Monetary items</u>						
USD	\$ 7,199	30.71	221,080	7,939	27.68	219,752
<u>Non-monetary items</u>						
USD	3,345	30.71	102,725	637	27.68	17,632
<u>Financial liabilities</u>						
<u>Monetary items</u>						
USD	9,930	30.71	304,938	5,271	27.68	145,901
<u>Non-monetary items</u>						
USD	3,711	30.71	113,965	7,095	27.68	196,390

(ii) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, trade and other receivables, and trade and other payables that are denominated in foreign currency. As of December 31, 2022 and 2021, when the exchange rate of the NTD versus the USD increase or decrease by 1%, given no changes in other factors, profit after tax will increase or decrease by \$671 and \$591, respectively, and the equity will increase or decrease by \$4 and \$5 due to cash flow hedges, respectively. This analysis was performed on a consistent basis for both periods.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Exchange gains or losses (including realized and unrealized) that resulted from monetary items translated to the functional currency were as follows:

	2022		2021	
	Exchange gain (loss)	Average rate	Exchange gain (loss)	Average rate
NTD	\$ <u>1,903</u>	-	<u>10,631</u>	-

4. Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 1% when reporting to management internally, which also represents the Group management's assessment of the reasonably possible interest rate change.

If the interest rate had increased or decreased by 1%, the Group's net profit would have decreased or increased by \$10,950 and \$6,230 for the years ended December 31, 2022 and 2021 with all other variable factors remaining constant. This is mainly due to the Group's borrowing at floating rates.

5. Fair value of financial instruments

(i) Fair value hierarchy

The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	December 31, 2022				
	Carrying	Fair Value			Total
	Value	Level 1	Level 2	Level 3	
Financial assets at fair value through profit or loss					
Financial assets designated at fair value through profit or loss	\$ <u>15</u>	-	15	-	15
Financial assets for hedging	\$ <u>2,112</u>	-	2,112	-	2,112

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

hierarchy. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

There was no reclassification of levels during the years ended December 31, 2022 and 2021.

(ii) Valuation techniques for financial instruments not measured at fair value

Financial liabilities measured at amortized cost

If there is quoted price generated by transactions, the recent transaction price and quoted price data is used as the basis for fair value measurement. However, if no quoted prices are available, the discounted cash flows are used to estimate fair values.

The valuations of the liability part of the convertible bonds issued by the Group are valued by discounted cash flows.

(iii) Valuation techniques for financial instruments measured at fair value

Derivative financial instruments

Measurement of the fair value of derivative instruments is based on the valuation techniques generally accepted by market participants such as the discounted cash flow or option pricing models. Put options and redeem options of the convertible bonds are valued by Binary Tree. Fair value of forward currency is usually determined by the forward currency exchange rate.

(x) Financial risk management

1. Overview

The Group have exposures to the following risks from its financial instruments:

- (i) Credit risk
- (ii) Liquidity risk
- (iii) Market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks' exposures, please refer to the respective notes in the accompanying consolidated financial statements.

2. Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The chairman is responsible for developing and monitoring the Group's

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

risk management policies. The chairman reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

3. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and bank deposits.

(i) Trade receivables

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and, in some cases, bank references. The Group rates major clients by other publicly available information and past transaction experience. Credit limits are established for each customer, and these limits are reviewed regularly. First-time customers, customers that have not traded for a long period, and customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

The Group evaluates the aging of trade receivables periodically, and accrues an allowance for doubtful accounts, if necessary. The allowance consists of a specific loss component that relates to individually significant risk exposures and a collective loss incurred but not yet identified. The collective loss allowance is determined based on historical payment statistics and forward looking information.

(ii) Bank deposit

The Group's transactions resulted from external parties with good credit ratings; there are no noncompliance issues. The Group also has relationships with multiple financial institutions to diversify risk.

4. Liquidity risk

The Group manages sufficient cash and cash equivalents to cope with its operations and mitigate the effects of fluctuations in cash flows. The Group's management supervises the banking facilities and ensures compliance with the terms of loan agreements.

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Loans and borrowings from the bank form an important source of liquidity for the Group. As of December 31, 2022 and 2021, the Group's unused credit line were amounted to \$735,000 and \$940,000 respectively.

5. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, and interest rates, will affect the Group's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(i) Currency risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the functional currency of the Group, the NTD. The currencies used in these transactions are the USD.

Regarding other monetary assets and liabilities denominated in foreign currencies, when short-term imbalance occurs, the Group buys or sells foreign currencies at real-time exchange rates to ensure that the net risk of risk remains at an acceptable level.

The Group determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The Group assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting changes in cash flows of the hedged item using the hypothetical derivative method.

In these hedge relationships, the main sources of ineffectiveness are:

- the effect of the counterparty and the Group's own credit risk on the fair value of the forward foreign exchange contracts, which is not reflected in the change in the fair value of the hedged cash flows attributable to the change in exchange rates; and
- changes in the timing of the hedged transactions.

(ii) Interest rate risk

The short-term and long-term borrowings of the Group are debts with floating interest rates. Therefore, changes in market interest rates will cause the interest rates of short-term and long-term borrowings to fluctuate, causing fluctuations in future cash flows.

(y) **Capital management**

The Group's objectives for managing capital to safeguard the capacity to continue to operate, to continue to provide a return on shareholders, to maintain the interest of other related parties, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares, or sell assets to settle any liabilities.

The Group use the debt-to-equity ratio to manage capital. This ratio is the total net debt divided by the total capital. The net debt from the balance sheet is derived from the total liabilities less cash and

(Continued)

AIR ASIA CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

cash equivalents. The total capital is the total equity plus net debt.

The Group's debt-to-equity ratios at the reporting date were as follows:

	December 31, 2022	December 31, 2021
Total liabilities	\$ 2,986,498	2,796,303
Less: cash and cash equivalents	<u>252,947</u>	<u>318,848</u>
Net debt	2,733,551	2,477,455
Total equity	<u>1,924,478</u>	<u>1,944,154</u>
Total capital	<u>\$ 4,658,029</u>	<u>4,421,609</u>
Debt-to-equity ratio	<u>58.68%</u>	<u>56.03%</u>

As of December 31, 2022, the Group's capital management strategy is consistent with the prior years.

(z) Investing and financing activities not affecting current cash flow

The Group acquired right-of-use assets by leases for the years ended December 31, 2022 and 2021, please refer to note 6(h).

The convertible bonds issued by the Group were converted into common stock for the years ended December 31, 2022 and 2021, please refer to note 6(r).

Reconciliation of liabilities arising from financing activities was as follows:

	January 1, 2022	Cash flows	Non-cash changes	December 31, 2022
Short-term loans	\$ 410,000	715,000	-	1,125,000
Short-term notes payable	949,203	(399,499)	-	549,704
Long-term loans (included in current portion)	368,750	(125,000)	-	243,750
Bonds payable (included in current portion)	235,762	(85,400)	(689)	149,673
Lease liabilities	<u>248,531</u>	<u>(27,914)</u>	<u>12,103</u>	<u>232,720</u>
Total liabilities from financing activities	<u>\$ 2,212,246</u>	<u>77,187</u>	<u>11,414</u>	<u>2,300,847</u>

Short-term notes payable	649,770	299,433	-	949,203
Long-term loans (included in current portion)	343,750	25,000	-	368,750
Bonds payable (included in current portion)	481,830	-	(246,068)	235,762
Lease liabilities	<u>273,724</u>	<u>(56,153)</u>	<u>30,960</u>	<u>248,531</u>
Total liabilities from financing activities	<u>\$ 2,129,074</u>	<u>298,280</u>	<u>(215,108)</u>	<u>2,212,246</u>

(7) Related-parties transactions:

(a) Parent company and ultimate controlling company

Taiwan Aerospace Corporation is both the parent company and the ultimate controlling party of the Group. As of December 31, 2022 and 2021, it owns 63.57% and 63.65% of all shares outstanding of the Group, respectively.

(b) Names and relationship with related parties

The followings are entities that have had transactions with related party during the periods covered in consolidated the financial statements.

<u>Name of related party</u>	<u>Relationship with the Company</u>
